

Missing Persons

Many people go missing in Jamaica every year. In 2004 alone, over 1800 people went missing and the number for 2005 is even higher!

If your loved one has gone missing, did you know there is a **FREE** website where you can list their information and photograph so that everyone will be able to see it?

You can also leave messages in the hope that someone reading knows where your loved one is.

You can speak to other people online who are in the same situation and give and get support from them in the Chat Room or the Forum.

If you are a concerned citizen please visit this website for information on missing persons in Jamaica. You might just help to reunite someone with his or her loved ones.
